### 1. Overview

Amazon Affiliate Program extension for Magento 2, developed by CedCommerce, enables the Magento users to connect with Amazon Affiliate program to advertise or offer its products on their website and earn commissions.

With the help of this extension, the store owner can easily set up different prices offered at Amazon, such as Sale Price, Offer Price, or Regular Price. In case of product variations, this extension provides the flexibility to fetch all the variants of the products such as colour, size, fabric, and so on.

Since, adding the products one by one makes a lengthy and difficult process; using this extension the store owner can easily import all the products in bulk.

Thus, the extension in accordance with Affiliate APIs of Amazon, enables the Magento 2 store owners to perform all the activities that facilitate the fetching of the Amazon product data to their websites, advertising the products and then redirecting the purchase process back to the Amazon website. Hence provides a very good opportunity to earn the commissions through the advertisements.

### Key features are as follows:

- Imports items information such as description, and images.
- Enables products import in bulk from Amazon.
- Imports products based on ASIN, Keywords, category-wise.
- Synchronization of the product price, image, description, and availability of products.
- Enables fetching of Product variation data such as colour, size, fabric, etc.

### 2. Retrieve Amazon Product Affiliate API Access Key and Secret Key

Once the Amazon Affiliate Program for Magento 2 extension is successfully installed on the Merchant's store, Amazon Affiliate tab appears on the left navigation bar of the Magento Admin Panel. The merchant has to retrieve and fill-in the API credentials in the Amazon Affiliate Configuration page of the admin panel.

The admin has to log in the Amazon Affiliate Program account to obtain the following API credentials:

Magento Admin Panel	Amazon Affiliate
Amazon Affiliate Api key	Access Key ID
Amazon Affiliate Tag key	Store ID
Amazon Affiliate Secret Key	Secret Access Key

The admin needs these API Key and Secret key credentials to build up the communication between the Amazon marketplace and the Magento 2 store.

#### To retrieve Amazon API Access Key and Secret Key

1. Access the https://affiliate-program.amazon.com(https://affiliate-program.amazon.com) link.

2. Log in with the registered credentials.

The page appears as shown in the following figure:

amazonassociates Store: Store: Store:					
	<b>View:</b> Native Shopping Ads				
Home Product Linking   Promotions	Tools - Reports Help -				
	SiteStripe				
We are retiring the aStore feature on October 27,	Publisher Studio on click here

Quick Links: Search for Produc	OneLink Product Advertising API Browse for Product				

- Copy the Id appearing next to the Store field as highlighted in the figure.
   Note: Keep the ID ready to paste it in the Amazon Affiliate Tag key while setting up the configuration setting in the Magento 2 Admin panel.
- 4. On the **Tools** menu, click **Product Advertising API**.

The page appears as shown in the following figure:

П	Advertise Amazon Products on Your Site	
H	Product Advertising API The Product Advertising API provides programmatic access to Amazon's product selection and discovery functionality so that developers like you	
PI	can advertise Amazon products to monetize your website. The Product Advertising API helps you advertise Amazon products using product search and look up capability, product information and features such as Customer Reviews, Similar Products, Wish Lists and New and Used listings. You can make money using the Product Advertising API to advertise Amazon products in conjunction with the Amazon Associates program.	Sign Up Now 🕥

5. Click the Sign Up Now button.

The **Sign in** dialog box appears as shown in the following figure:

amazon			
Sign in			
Email (phone for	mobile accounts)		
Password	Forgot your password?

12. Click the Create New Access Key button.

The *Access Key ID* and the *Secret Access Key* are created and appears as shown in the following figure:

To help protect your security, store your secret access key securely and do not share it.     Hide Access Key   Access Key ID: Secret Access Key:	ownload y	cess key (access key l your key file now, whic pad the key file now, yo	D and secret access key) has been created successfully. ch contains your new access key ID and secret access key. If you do ou will not be able to retrieve your secret access key again.
Access Key ID: Secret Access Key:	o help prote	ect your security, store y ccess Key	our secret access key securely and do not share it.
		Access Key ID:	

*Note: Copy and k*eep the Access Key ID and the Secret Access Key ready to use it while setting up the configuration setting in the Magento 2 Admin panel.

### 3. Amazon Affiliate Configuration Settings

After retrieving the Amazon Affiliate API credentials, the store owner can use them while setting up the configurations through the Admin panel.

### To set up the Amazon Affiliate Configuration

- 1. Go to the Admin panel.
- 2. On the left navigation bar, click the **AMAZON AFFILIATE** menu. The menu appears as shown in the following figure:

### 3. Click Configuration.

The Configuration page appears as shown in the following figure:

Configuration		Q 💋 .
Scope: Default Config 👻 🕜		Save Config
CEDCOMMERCE ^	Amazon Affiliate Settings	$\odot$
	Customised Product Import Settings	$\odot$
Amazon Affiliate	Product Import Settings	$\odot$
	Affiliate Cron Settings	O

#### 4. In the right panel, click the **Amazon Affiliate Settings** tab.

The tab is expanded, and the section appears as shown in the following figure:

Amazon Affiliate Settings	$\odot$
Amazon Affiliate Api key [global]	 ]
Amazon Affiliate Tag key [global]	 ]
Amazon Affiliate Secret Key [global]	 ]
Endpoint URL [global]	Use system value

 $\odot$ 

 $\odot$ 

- 5. Under Amazon Affiliate Settings, do the following:
  - a. In the Amazon Affiliate Api Key box, paste the Access Key ID copied from the Amazon Affiliate account.
  - b. In the Amazon Affiliate Tag Key box, paste the Store ID copied from the Amazon Affiliate account.
  - c. In the **Amazon Affiliate Secret Key** box, paste the **Secret Access Key c**opied from the Amazon Affiliate account.
  - d. In **Endpoint URL**, enter the URL.
- 6. Now Click on **Customised Product Import Settings**, and the tab is expanded as:

Customised Product Import Settings

Product Import Settings

Shipping Type [global]	No Rule	•	
Quantity Must Not Below [global]	No Rule	٣	
Enter Custom Price Lower Range [global]			
Enter Custom Price Upper Range [global]			
Map Brand Attribute	Please Select		
	Add Default Attribute For Brand. Brand Attribute In A	Amazon	

- 7. Under Customised Product Import Settings, do the following steps:
  - In **Shipping Type**, select the type of shipping from the menu.
  - In Quantity Must Not Below, select the quantity.
  - In the Enter Custom Price Lower Range, enter the price for the lower range products.
  - In the Enter Custom Price Upper Range, enter the custom price of the upper range products.
  - In Map Brand Attribute, add the brand attributes in Amazon.
- 8. Scroll down to the **Product Import Settings** tab, and then click the tab.
- The tab is expanded, and the section appears as shown in the following figure:

Set Default Qty for Products [global]	10		<ul> <li>Use system value</li> </ul>
Enable Imported Products [global]	Yes	*	✓ Use system value
Set Product Visibility [global]	Catalog, Search	×	✓ Use system value
Set Throttle Limit [global]	2		✓ Use system value
	Set Time in Seconds		
Set Product Push Limit			Use system value

- 9. Under Product Import Settings, do the following steps:
  - a. In the Set Default Qty for Products box, enter the required number of products.
  - b. In the Enable Imported Products list, select the Yes option to enable the imported products.
  - c. In the **Set Product Visibility** list, select the required option to set the area where the product is visible.

 $\bigcirc$ 

## d. In the Set Throttle Limit box, enter the time in seconds. *Tip*: To change the value, clear the Use System value check box.

e. In **Set Product Push Limit**, either enter the limit or select the system value. 10. Now scroll down and click on **Affiliate Cron Settings**; the tab is expanded as:

Cron Settings			
All Inventory   Price Cron	Enable	•	
	Syncing Cron Status	1	
All Inventory   Price Cron Expression [global]	Every 5 Minutes	•	0
	All Inventory Price Cron Expression		
Push All product lds Cron [global]	Enable	•	
	Push Product Ids in Table for process		
All Products Push Cron	Every 5 Minutes	•	0
	All Products Push Cron		,
Process All product Ids Cron	Enable	•	
	Process all Product Ids in Table		
All Products Process Cron	Every 5 Minutes	•	0
[Bionai]	All Products Process Cron		1

11. Under Affiliate Cron Settings, do the following steps:

- a. In All Inventory/Price Cron, select Enable to sync the inventory and price through crons.
- b. In **All Inventory/Price Cron Expression**, select the duration at which you want the inventory and price cron to run.
- c. In Push All Product Ids Cron, select Enable to push the products in the table.
- d. In All Product Push Cron, select the duration you want to run the product cron.
- e. In Process All Product Ids Cron, select Enable to process the product ids.

f. In **All Products Process Cron**, select the duration at which you want products process cron to run.

12. Click the Save Config button.

Affiliate

The Configuration settings are saved and a success message appears.

### 4. Search and Import Products from Amazon

This extension allows the admin to search and import the products through the three different criteria as follows:

- S(http://docs.cedcommerce.com/magento-2/amazon-affiliate-program-magento-2?section=search-and-import-products-through-keywords)
   e(http://docs.cedcommerce.com/magento-2/amazon-affiliate-program-magento-2?section=search-and-import-products-through-keywords)
   arch / Import via Keywords(http://docs.cedcommerce.com/magento-2/amazon-affiliate-program-magento-2/amazon-affiliate-program-magento-2/amazon-affiliate-program-magento-2?section=search-and-import-products-through-keywords)
- Search / Import via ASIN(http://docs.cedcommerce.com/magento-2/amazon-affiliate-program-

magento-2?section=search-and-import-products-through-asin)

- Search / Import via Amazon Node Id(http://docs.cedcommerce.com/magento-2/amazon-affiliate-programmagento-2?section=search-and-import-products-through-amazon-node-id)
- Import Products Through Amazon Product Link(https://docs.cedcommerce.com/magento-2/amazonaffiliate-program-magento-2?section=import-products-through-amazon-product-link)

### 4.1. Search and Import Products through Keywords

To import the products based on keywords, the admin can follow any of the following tasks:

- Search the products based on the defined criteria and then import the selected products
- · Import all the products based on the defined criteria

#### To import the products based on keywords

- 1. Go to the Admin panel.
- 2. On the left navigation bar, click the **AMAZON AFFILIATE** menu. The menu appears as shown in the following figure:

Amazon Affiliate $~ imes$	
Search / Import Product(s)	
Product Sync	
Configuration	
Activity Logs	
Images Sync	

3. Click Search / Import Products(s).

The Amazon Affiliate Product List page appears as shown in the following figure:

Amazon Affiliate Product List				Q		<b>T</b>
Search / Import via Keywords						$\odot$
Search / Import via ASIN						$\odot$
Search / Import via Amazon Node Id						$\odot$
Import via Amazon Product Link						$\odot$
Actions				20 • per page <	1	of 1 >
Name Image	ASIN	Price	Node Id	Node Name		
	W	e couldn't find any recor	ds.			

4. Click the Search / Import via Keyword tab. It is expanded as shown below:

Amazon Affiliate Product List		Q	<b>#</b>
Search / Import via Keywords			$\odot$
Enter Keyword 🤞	Enter Product name or title to search E.g. Xbox 360		
Category	All		
Item Page (specify page number between 1 to 10) Brand	Enter the page number between 1 to 10 to pull data from Amazon. E.g : 2		
	Brand name associated with an item. E.g. Microsoft , # choose category other than $\ensuremath{\textbf{ALL}}$		

- 5. Under Search / Import via Keyword do the following steps:
  - a. In the Enter Keyword box, enter the keyword. For example: Xbox 360
  - b. In the **Category** list, select the required category of the product.
  - c. In the Item Page box, enter the page number between 1 to 5 to pull data from Amazon.
  - d. In the **Brand** box, enter the brand name associated with the item. *For example: Samsung*
  - e. Click the **Search** button. The search result appears as shown in the following figure:

Action	ns  10 records found (4 selected)		20	• per	r page 🛛 <	( 1 of 1 >
Import	Selected	Image	ASIN	Price	Node Id	Node Name
~	Xbox 360 AV Cable	Product Image	B0011E82F4	0.01	724134011	Cables
Y	Xbox 360 Wireless Controller - Gold Chrome		B00EFRNGOA	34.99	1232362011	Gamepads & Standard Controllers
Y	Microsoft Xbox 360 Game System HDMI Console 60GB	1000	B001DT02JG	0	14112971	Consoles
Y	Sades SA920 PS4 Xbox One/ Xbox 360 Multi Function Stereo Gaming Headset Pro Gaming Headphones with Mic(Black&Blue)		B0716JCSTQ	22.99	676963011	Headsets

f. Select the checkboxes associated with the required searched product.

### g. In the Actions list, select Import Selected.

The **Submit** button appears next to the Actions list.

Import Selected	Submit	10 records found (4 selected)

h. Click the **Submit** button.

The selected products are imported from Amazon to the magento store and a success message appears.

6. To import all the products based on the defined criteria, click the Import tab. The tab is expanded and the fields appear as shown in the following figure:

Amazon Affiliate Product List		Q	<b>⊯</b> 3
Search / Import via Keywords Search Import			$\odot$
Enter Keyword *	Enter Product name or title to search E.g. Xbox 360		
Category	All		
Item Page (specify page number between 1 to 10)	From To To Enter the page number from 1 to 10 to import from Amazon. Eg: from 1 to 4		
Brand	Brand name associated with an item. E.g. Microsoft . # choose category other than ALL		
			Import

- a. In the Enter Keyword box, enter the keyword. For example: Xbox 360
- b. In the **Category** list, select the required category of the product.
- c. In the **From** and the **To** boxes next to the **Item Page** field, enter the page number from 1 to 5 to pull data from Amazon.
- d. In the **Brand** box, enter the brand name associated with the item. *For example: Samsung*
- e. Click the **Import** button.

Based on the defined criteria, the products are imported, and the page appears as shown in the following figure:
