1. Overview

'Bol Prestashop Integration is an impressive integration developed by CedCommerce. It helps Prestashop online retailers to synchronize their products inventory, prices, and other product details between Prestashop store and the Bol Web site for product creation and management.

Key Features:

- **Multiple Account Support:** This extension provides a powerful Prestashop console to Manage multiple Bol accounts.
- **Product Offer Sync:** Enables the admin to synchronize products inventory and prices between your Prestashop and bol marketplace.
- **Carrier mapping:** Admin has a flexibility to map their carrier provider and ship bol orders from your Prestashop store.
- **Orders Management:** This feature enables you to manage Order Creation, Shipment and Cancellation of Orders in Prestashop.
- **Order Shipment:** You can easily manage your Bol order shipment from your Prestashop backend.
- **Commission Lookup:** Admin can check commission on items by ean and make profit margin by setting an accurate price.
- **Return Process:** Returns created on bol will be fetched and get created in PrestaShop and Admin can accept or reject them
- **Cron Management:** With this feature, the products, inventory, order, and the pricing gets regularly updated after a fixed interval of time because of PrestaShop Bol sync established.

2. Bol Integration Extension Installation

To install the extension:

1. Go to the **Prestashop Admin panel**.
2. On the left navigation bar, point cursor to the **Modules and Services**.
The menu appears as shown in the following figure:

3. Now click the **Modules Manager** menu, and you will come across a page like shown below.

4. Now you need to click on **Upload a Module** on the top of the page.

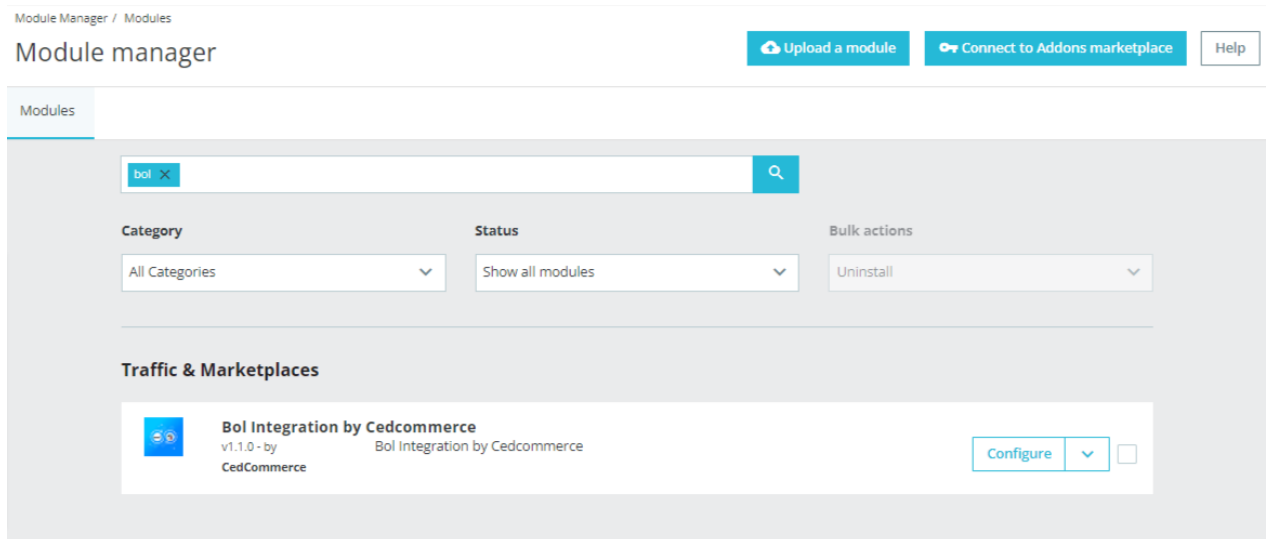

5. In doing so, the page opens a section like shown in the image below:

6. Now in the Module File tab, choose the package file of Bol marketplace from your system.

7. Once selected, click on the **Upload this module** button.

8. On the same page, scroll down and in the Modules list, search for **Bol** and it will be listed on the right as shown in the image below. You have to click on the **Install**.

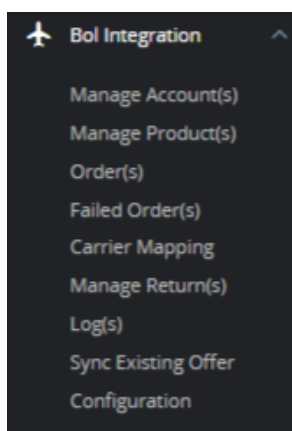

9. Once you click on the **Install** button, you can see a message like shown below, on the same page, asking you if you wish to proceed with the installation. You may click on **Proceed with the installation**.
10. The module will be installed and you will be navigated to the **Configuration** page for further steps to be taken.

3. Bol Configuration Settings

Once the module gets installed, you get navigated to the Configuration page.

To perform configuration settings:

1. Go to the **Prestashop Admin** panel.
2. In the left navigation panel, place the cursor on **Bol Integration** and the section expands as:

3. Click on **Configuration**
The page appears as shown in the figure:
