1. Overview

vidaXL marketplace is an international ecommerce retailer having its headquarters in The Netherlands. This marketplace offers a variety of categories to sell online like home & garden, furniture, sporting goods, etc. It sells in 27 European countries, United States, Australia to expand its reach to customers.

vidaXL Dropshipping Extension for Magento 2 is developed by CedCommerce for merchants to dropship on the vidaXL marketplace and earn a good commission amount. This extension is made keeping in mind to make the shipping process easier for the sellers. The various features of this extension have made the dropshipping process smoother.

Key Features

- Bulk Product Import- The extension helps you to import products in bulk from the marketplace saving time.
- Centralised Order Management- It enables the sellers to manage vidaXL orders on their Magento stores through a single dashboard.
- **Price Markup-** The sellers can change the price of vidaXL products very conveniently by changing it by a fixed amount or by a fixed percentage.
- Cron Scheduler- With the cron feature in the extension sellers can automate and regulate the tasks.
- Shipment Automation- All the shipment information is updated in real time on the Magento 2 store.

2. Installation of Extension

To install the vidaXL Dropshipping extension for Magento 2,

• Upload and Extract the Vidaxl package file inside the *app/code/Ced/* directory and run the below command from Magento rootphp bin/magento setup:upgrade php bin/magento setup:di:compile php bin/magento setup:static-content:deploy -f php bin/magento index:reindex php bin/magento cache:clean php bin/magento cache:clean

3. Configuration Settings

To set up the configuration settings

- 1. Go to the Magento Admin Panel.
- 2. On the left navigation panel, click on the vidaXL Dropshipping menu.

3. Click on **Configuration**.
