1. Overview

To help the merchants who have a Magento store, to import the products from Taobao on their Magento store, CedCommerce comes with the **Taobao Product Importer for Magento**! With this Magento Product Import Extension, now the sellers may easily import huge number of products from Taobao Marketplace to their Magento admin panel, and from there, they may take those products to their Magento store.

Read on and discover about the uncomplicated procedure of importing Taobao product to Magento that a seller needs to undergo to make the business a huge success, with unprecedented results.

2. Extension Installation

To Install the Extension,

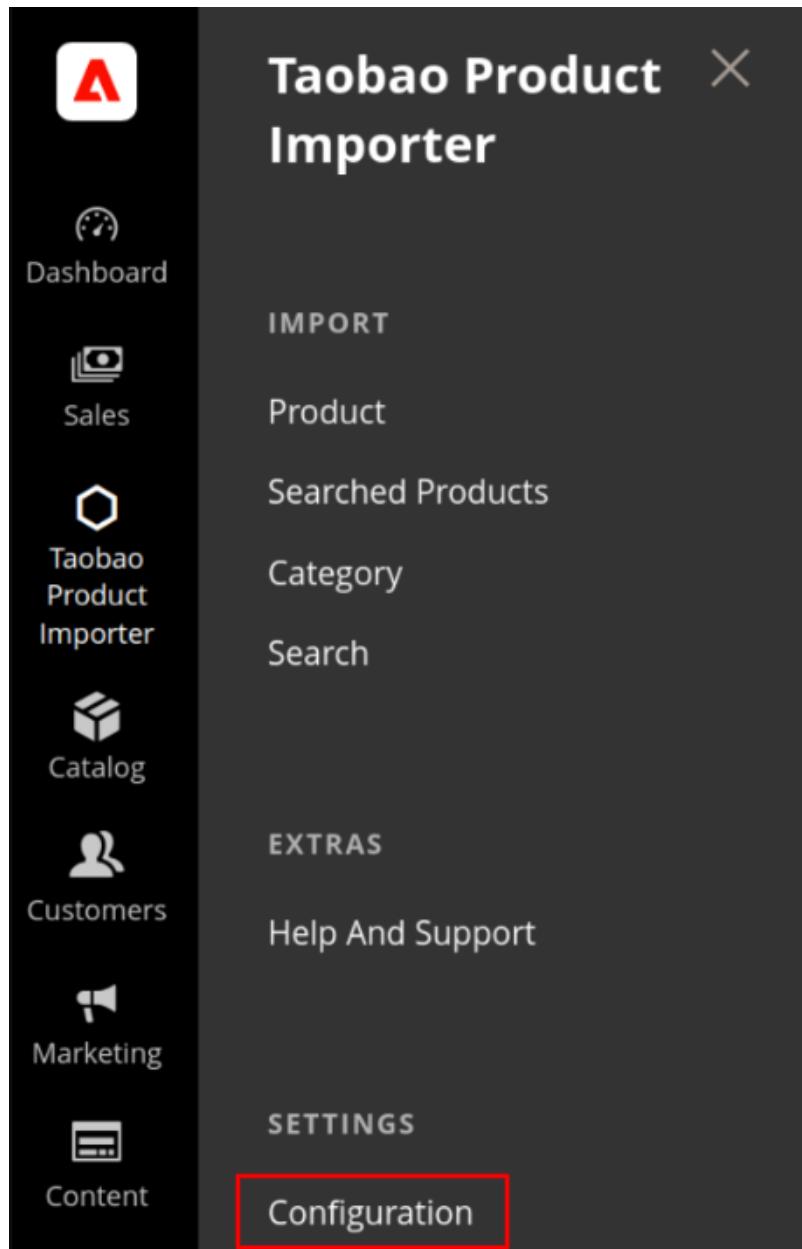

- Log in the **FTP**, and then go to Magento 2 root folder (generally present under the [public_html](#) folder).
- Create a new folder named [code](#) under the [app](#) folder; under [code](#) folder, create a folder named [Ced](#).
- Upload or Drag and Drop [app/code/Ced/TaobaoImporter](#) directory.
- After successfully uploading the file, need to run the below command From Magento Root Directory.
[php bin/magento setup:upgrade](#)
[php bin/magento setup:di:compile](#)
[php bin/magento setup:static-content:deploy -f](#)
[php bin/magento indexer:reindex](#)
[php bin/magento cache:flush](#)

3. Configuration

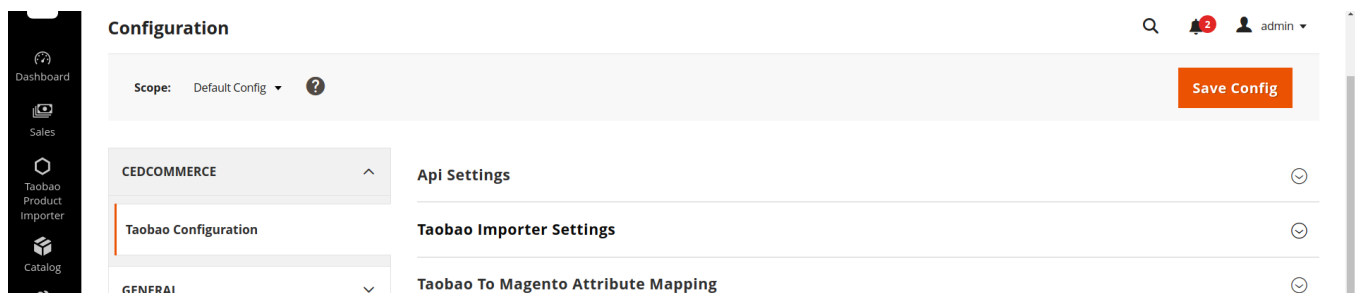

After the merchant is done with the successful installation of this extension, the **Taobao Product Importer** menu can be seen on the left navigation bar of the admin panel.

Now, the admin needs to go through the following steps to set up the configuration.

- Go to the **Magento 2 Admin panel**.
- On the left navigation bar, click the **Taobao Product Importer** menu.
The menu appears as shown in the following figure:

- Click on **Configuration**.
- On clicking it, you will be navigated to the page as shown below,

API Settings

- Click **API Settings** and the section will expand as:

Api Settings 

Enabled
[global]

Yes  

OT-Commerce Instance Key
[store view]

Language
[global]

English 
Select Your Language

Select Store
[global]

Default Store View 

- In **Enabled**, select **Yes** to enable the extension.
- In **OT-Commerce Instance Key**, enter the key which you need to get from Taobao.
- Select the language in which you want to process your business operation, in **Language** field.
- In **Select Store**, select the store to which you want to import the Taobao products.

Taobao Importer Settings

- Click **Taobao Importer Settings** and the section will expand as:

Taobao Importer Settings

Set Product Status <small>[global]</small>	Enable	▼
Set Product Visibility <small>[global]</small>	Catalog, Search	▼
Set Product Attribute Set <small>[global]</small>	Default	▼
Set Product Attribute Group <small>[global]</small>	Product Details [set: Default]	▼
Product Price <small>[website]</small>	1	?
Default Product price		
Product SKU Prefix <small>[website]</small>	tb_	?

Product Weight <small>[website]</small>	0.5	?
Default Product Weight		
Default Category <small>[store view]</small>	Default Category	▼ ?
Add Default Category		
Product Creation Chunk <small>[website]</small>	5	▼ ?
Default Product Creation Limit		

- In **Set Product Status**, set the status of the products that you are importing from Taobao to Magento. This status would reflect on Magento.
- In **Set Product Visibility**, select the format in which you want the imported products to be seen on your Magento store.
- In **Set Product Attribute Set**, select the product attribute set.
- In **Set Product Attribute Group**, select the attribute group for the products that you are importing.
- In **Product Price**, enter the default price for the products.
- Enter the prefix for the products you are importing, in the **Product SKU Prefix** field.
- Enter the default product weight in the **Product Weight** field.
- Select the default category for the products that you are importing, in the **Default Category** field.
- In **Product Creation Chunk**, select the default product creation limit.

Taobao to Magento Attribute Mapping

- Click **Taobao to Magento Attribute Mapping** and the section will expand as:

Taobao To Magento Attribute Mapping

Map Brand Attribute [global] ?

Add Default Attribute For Brand. **Vendor Attribute In Taobao**

- In the **Map Brand Attribute** field, select the brand attribute from the list as shown in the image below:

Taobao To Magento Attribute Mapping

Map Brand Attribute [global] ?

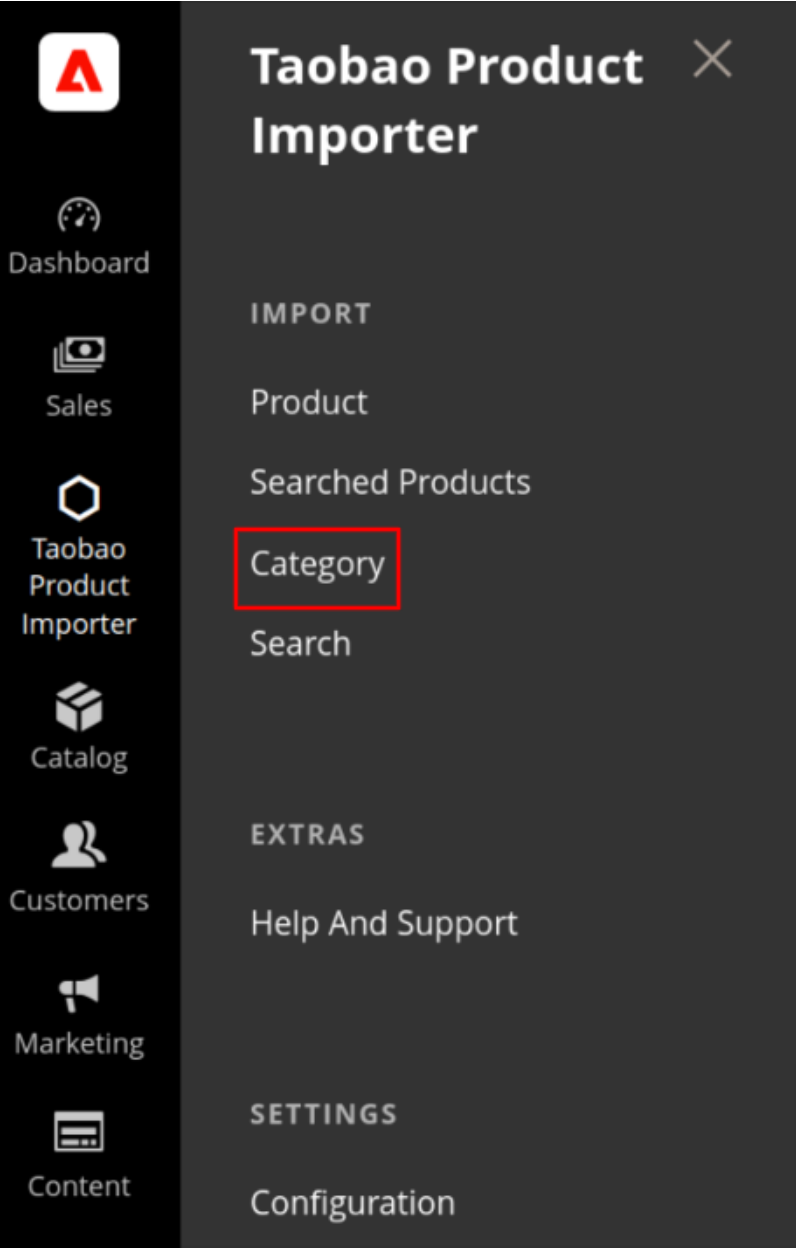

- Please Select----
- Activity ----> multiselect type
- Band Color ----> select type
- Band Width ----> select type
- Bundle ----> select type
- Cabinet Color ----> select type
- Color ----> select type
- Color Name ----> select type
- Frame Color ----> select type
- Hat Size ----> select type
- Kid US Size ----> select type
- Length ----> select type
- Lenses Color ----> select type
- Material ----> select type
- Plug Type ----> select type
- Aliexpress Product Id ----> text type

Once you have taken all the actions described above, click on **Save Config** button on the top right of the page. **Configuration** will be saved.

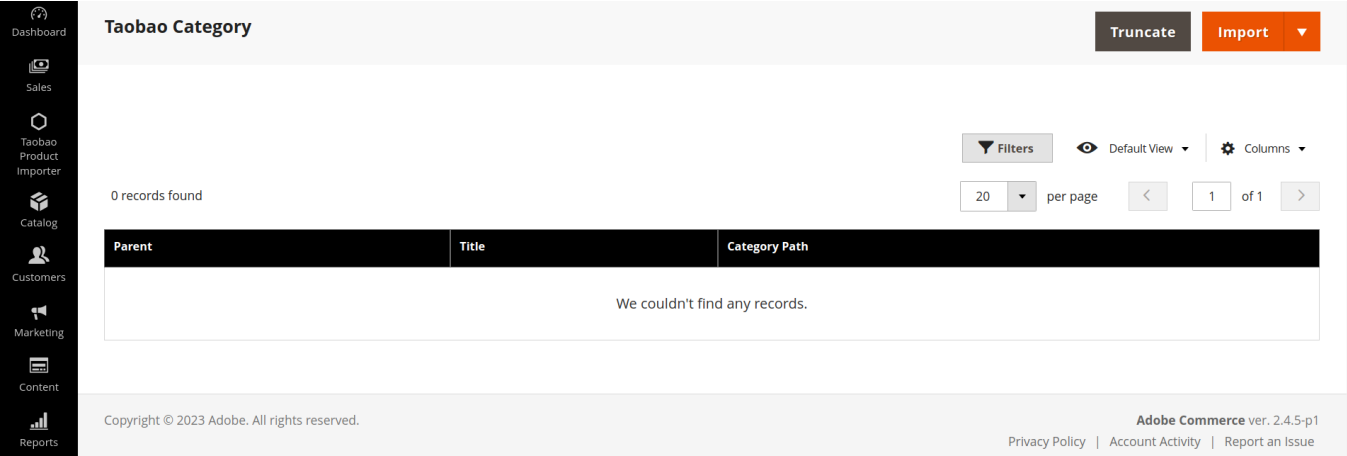

4. Category

Once you are done with the Configuration part, the next step is to import the Taobao categories to Magento. To do so,

- Go to your Magento admin panel.
- On left navigation bar, click **Taobao product importer**.
- Click on **Category** when the menu appears.

- You will be navigated to the page as shown below:

- Click **Import** button on the top right of the page. The categories will be imported and you will see them as has been shown in the image below:

Taobao Category
