## 1. Overview

OTTO is Germany's second-biggest online marketplace selling fashion and lifestyle products in over 30 countries. The total revenue of the OTTO marketplace was more than 14.26 billion Euros in the fiscal year 2019-20.

OTTO Integration for Magento 2 is a one-stop solution for sellers to sell smoothly in Europe. It helps to alleviate the process of product listing in bulk along with the perfect synchronisation of products and orders between the Magento store and OTTO marketplace. It provides the synchronization of details by making use of the OTTO API keys. Thus, it enables sellers to perform selling hassle-free.

### Key Features:

- **Bulk Product Upload:** Enables you to upload products in bulk with a single click on the OTTO marketplace.
- **Multi Account Management:** You can easily manage multiple OTTO accounts through a single dashboard through this extension.
- **Auto Synchronisation:** The extension automatically syncs the products, orders, and inventory at regular intervals of time and makes your selling process easier.

## 2. How to Install Otto Extension

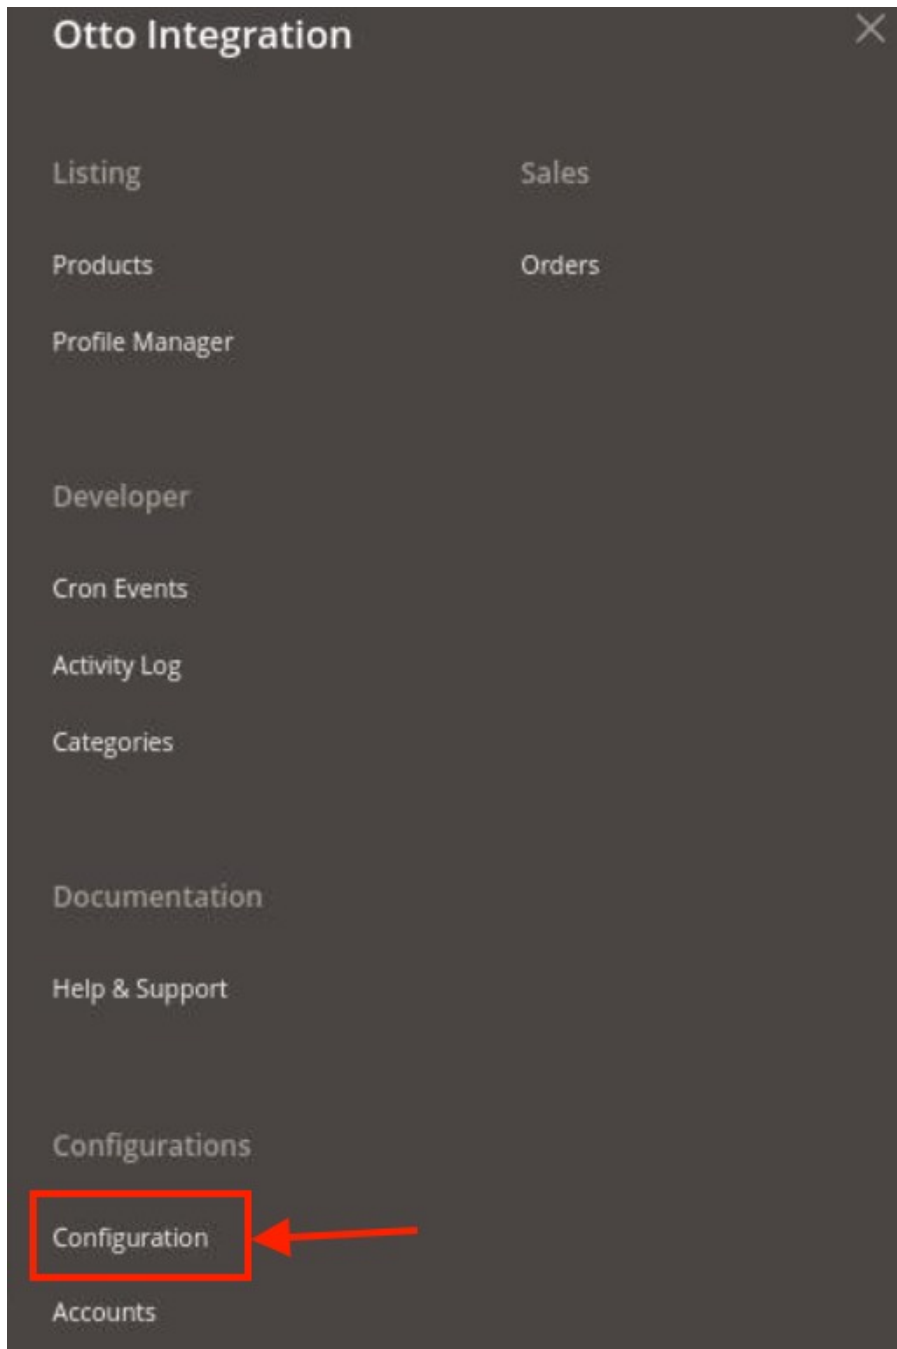

### To install the extension

1. Log in to the **ftp**, and then go to Magento 2 root folder (generally present under the *public\_html* folder).
2. Create a new folder named *code* under the *app* folder; under the *code* folder, create a folder named *Ced*.
  - Upload and extract the Otto Integration extension file inside the *app/code/Ced* directory.
  - Map the SDK with the Magento root composer.json file.
  - Add the below line under 'files'
  - *"app/code/Ced/Otto/Lib/otto/autoload.php"*
  - Add the below line under autoload-dev -> PS4
  - *"Ottol": "app/code/Ced/Otto/Lib/otto/src/Otto"*
  - Now run the following upgrade command in *cmd*
    - *composer dump*
    - *php bin/magento setup:upgrade*
    - *php bin/magento setup:di:compile*
    - *php bin/magento setup:static-content:deploy -f*
    - *php bin/magento indexer:reindex*
    - *php bin/magento cache:clean*
    - *php bin/magento cache:flush*

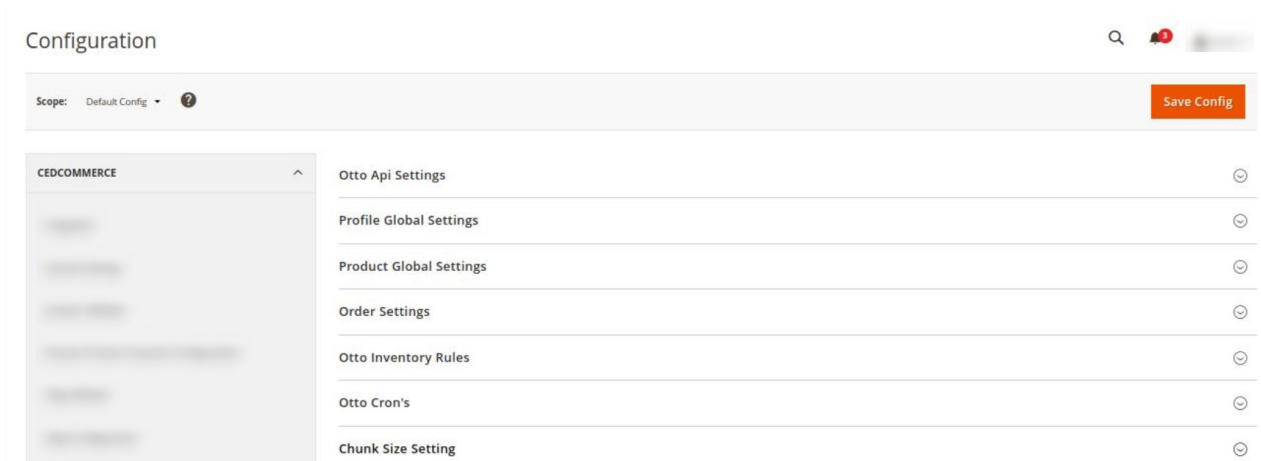

## 3. Configuration Settings

### To configure the extension,

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **OTTO Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Configuration**.  
The **Configuration** page appears as shown below:

4. In the right panel, click on **Otto API Settings**, and the section expands as:

5. Under **Otto Api Settings**, do the following steps:
  - In the **Enabled** list, select **Yes** to enable the extension features.
  - In the **Debug Log** list, select **Yes** to start Otto Integration in the debug mode.
  - In the **Select Store**, select the store view.

6. Now scroll down and click on **Profile Global Settings**, the section is expanded as:

7. Under **Profile Global Settings**, do the following steps:
  - In **Create Duplicate Profile with Product**, select **Yes** if you want to create a duplicate profile for the products.
8. Scroll down and click on **Product Global Settings**, the section is expanded as:

## Product Global Settings

Please set the global settings for Otto.com

**Otto Product Price** [global]  ▼  
 Select to send a different product price to **OTTO.com**

**Shipping Settings** [global]

| Enabled                                 | Region                          | Method                          | Magento Attribute Code                   | Action |
|---|---------------------------------|---------------------------------|--|--------|
| <input type="text" value="Yes"/> ▼      | <input type="text" value=""/> ▼ | <input type="text" value=""/> ▼ | <input type="text" value="--please:"/> ▼ |        |
| <input type="button" value="Add Rule"/> |                                 |                                 |  |        |

9. Under **Product Global Settings**, do the following steps:

- In the **Otto Product Price** list, select one of the following options:

- **Increase by Fixed Price:** If selected, then the Modify by Fix Price field appears.
- **Increase by Fixed Percentage:** If selected, then the Modify by Percentage Price field appears. Enter the numeric value to increase the price of the Otto, product price by the entered value % of Magento price

**For Example,**

Magento price + 5% of Magento price.

Magento Price = 100

Select Increase By Fixed Percentage option

Enter Percentage = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Otto Product Price = 105

- **Decrease by Fixed Price:** If selected, then the Modify by Fix Price field appears.
- **Decrease by Fixed Percentage:** If selected, then the Modify by Percentage Price field appears.

Enter the numeric value to decrease the price of the Otto product price by the entered value % of Magento price.

**For Example,**

Magento price – 5% of Magento price.

Magento Price = 100

Select Decrease By Fixed Percentage option

Enter Percentage = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Otto Product Price = 95

- In Shipping Settings, map the shipping methods with the Magento attributes.

10. Now scroll down and click on **Order Settings**, the section is expanded as:

Order Settings

**Create Product** [global]    
Create Product if product Not exist in magento.

**Otto Order Id Prefix** [global]   
Prefix for Otto Increment ID

**Customer Email** [global]   
Enter the Email for which customer will be created for Otto Orders.

**Order Return Carrier** [global]   
Enter Order Return Carrier. This will used for order shipment tracking (Like : DHL )

**Order Return Tracking Number** [global]   
Enter Order Return Tracking Number. This will used for order shipment tracking number

**Shipping** [global]  

**Payment** [global]  

11. Under **Order Settings**, do the following steps:
  - In the **Create Product** field, select **Yes** if you want to create a product if it does not exist in Magento and yet has been ordered on Otto.
  - In the **Otto Order Id Prefix** box, enter the text as a prefix for Otto Increment ID.
  - In the **Customer Email** field, enter the email for which customer will be created for Otto Orders.
  - In **Order Return Carrier**, enter the order return carrier for the shipment.
  - In **Order Return Tracking Number**, enter the order tracking number.
  - In **Shipping**, select the shipping method of the order.
  - In **Payment**, select the payment method of the order.
12. Scroll down and click on **Otto Inventory Rules**, the section is expanded as:

Otto Inventory Rules

**Set Inventory on Basis of Threshold** [global]    
Choose yes to send inventory on Otto by condition

**Inventory Threshold Value** [global]   
Set inventory quantity on which lesser and greater condition can control.

**Send Inventory for Lesser Than Threshold Case** [global]   
Send Quantity to Otto for those products, whose inventory is LESSER than the inventory threshold.

**Send Inventory for Greater Than Threshold Case** [global]   
Send Quantity to Otto for those products, whose inventory is GREATER than the inventory threshold.

13. Under **Otto Inventory Rules**, do the following steps:
  - In the **Set Inventory on Basis of Threshold** list, select **Enable** to send the inventory based on the threshold.
  - In the **Inventory Threshold Value** box, enter the required value.
  - In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
  - In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.
14. Scroll down and click on **Otto Cron's**, the section is expanded as:

**OTTO Cron's** ⊖

**Order Cron** [global]  ▼  
Order Fetch Cron

**Inventory Cron** [global]  ▼  
Inventory Sync Cron

**Shipment Cron** [global]  ▼  
This will automatically generate

15. Under **OTTO Cron**, do the following steps;
  - In the **Order Cron** list, select **Enable** to enable the order fetch cron.
  - In **Inventory Cron**, select **Enable** to sync the inventory.
  - In **Shipment Cron**, select **Enable** to generate the shipments automatically.
16. Scroll down and click on **Chunk Size Setting**, the section is expanded as:

**Chunk Size Setting**

**Validation Size** [global]   
Chunk size for validate Product .

**Upload** [global]   
Chunk size for Upload Product .

**Inventory Update** [global]   
Chunk size for Inventory Update .

**Sync Status** [global]   
Chunk size for Product Status Sync.

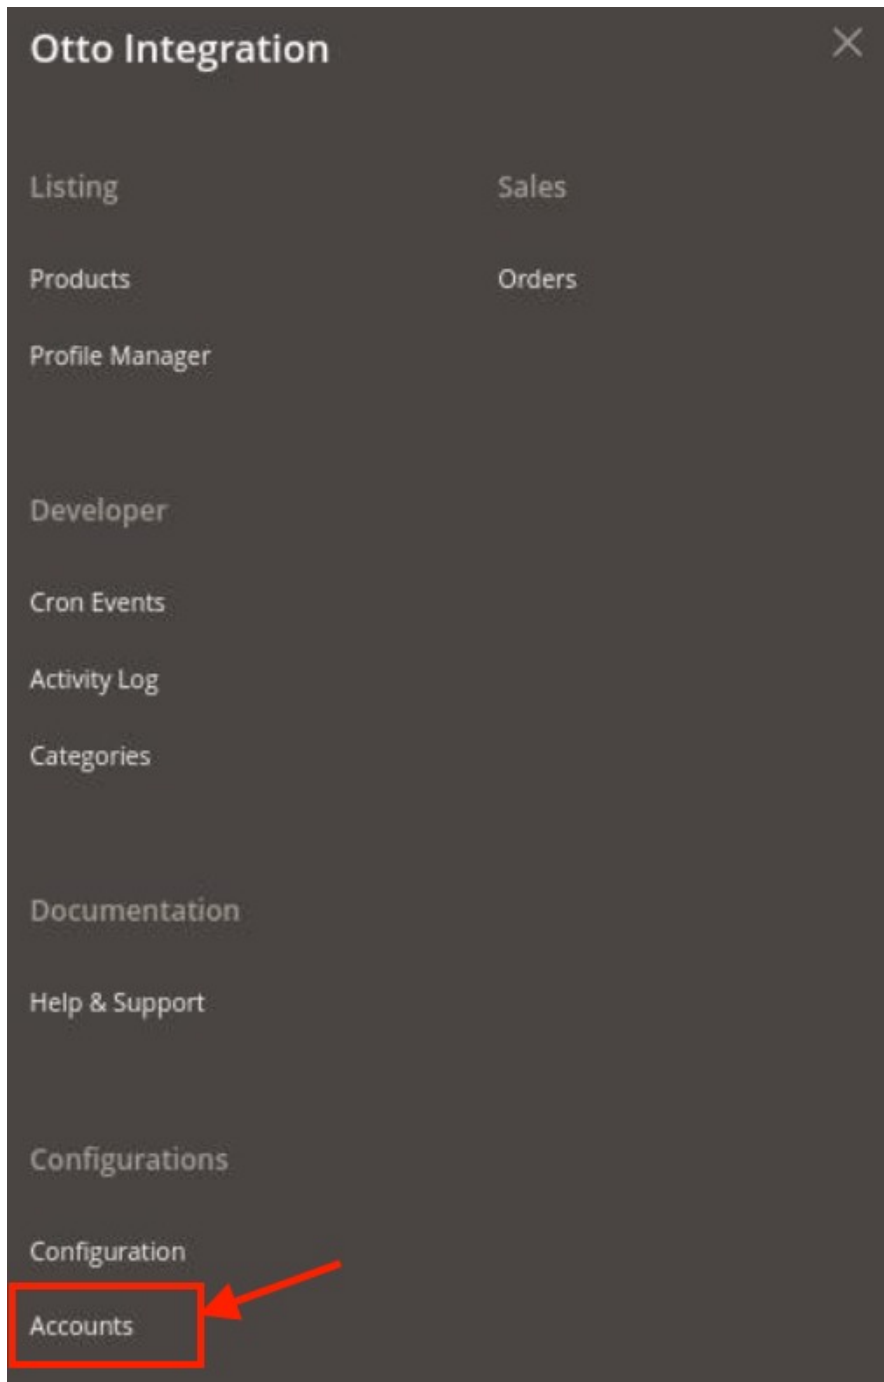

17. Under **Chunk Size Setting**, do the following steps:
  - In the **Validation Size** field, enter the chunk size for the products. The products that will get validated before being uploaded on Otto would be the same as the number you enter in this field.
  - In the **Upload** field, enter the number of products that you want to upload in one go from Magento to Otto
  - In **Inventory Update**, enter the chunk size for inventory to be updated.
  - In the **Sync Status** field, enter the chunk size of the products. The number of products that you will be able to sync the status for would be the same as the number that you enter in this field.
18. Click on the **Save Config** button.  
The configuration settings will be saved.

## 4. Account Settings

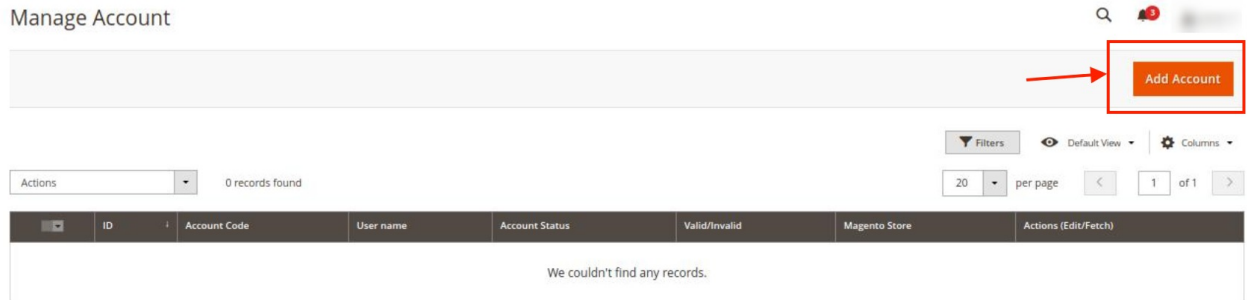

To manage the accounts in the extension,

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **OTTO Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Accounts**.  
The **Manage Account** page appears as shown below:

4. To add a new account, click on **Add Account** button on the top right corner. You'll be redirected to a new accounts page:

5. Under **Account Information**, do the following steps:
- In **Account Code**, enter a unique code for your account.
  - In **User Name**, enter your Otto Account user name.
  - In **Password**, enter the Otto account password.
  - In **Valid/Invalid**, the seller details status entered by you will be shown that it is valid or not.
  - In **Account Status**, select **Enable** to enable the status of the account.
  - In **Account Store**, select the store view.
6. Click on the **Save** button.  
The New Account will be created and displayed in the manage account grid.

### To Edit an Account.

1. On the **Otto Accounts page**, click the **edit** button in the Actions column for the account that you want to edit and do all the required edits in the Account and Save it.

## 5. Manage OTTO Profiles

**Under manage profile you can perform the following actions:**

- Add New Profile
- Edit Existing Profile
- Submit Actions in Bulk on Selected Profiles
