1.	Overview	3
2.	Installation Of Advanced Reindex Module	3
3.	Advanced Reindex Module Configuration Setting	3

1. Overview

CedCommerce offers an efficient and easy-to-use Advanced Reindex Module for Magento 2 for swift updating or indexing of data. Any data change gets quickly reflected, with options for bulk indexing of products in a single click.

Key Features Of Advanced Reindex Module

- 1. **Bulk Indexing**: This feature allows sellers/merchants to select all the products at once and reindex all the indexers all at once.
- 2. **Mass Action Indexing**: The feature helps to select more than one product and accordingly reindex more than one indexer.
- 3. Inline Indexing: The feature plays an important role in reindexing each indexer separately.

2. Installation Of Advanced Reindex Module

To install the extension:

- Log in the ftp, and then go to the Magento 2 root folder (generally present under the public_html folder).
- Create a new folder named code under the app folder; under code folder, create a folder named Ced.
 - a. Upload or Drag and Drop app/code/Ced directory.
 - b. After successfully uploading the directory, the extension will be installed/upgraded.
 - c. Now run the following upgrade command in cmd
 - php bin/magento setup:upgrade php bin/magento setup:di:compile php bin/magento setup:static-content:deploy -f php bin/magento index:reindex php bin/magento cache:flush

3. Advanced Reindex Module Configuration Setting

Advanced Reindex Module Configuration Setting

Following the successful installation of the Advanced Reindex Module on the Magento 2 store, the admin has to set up configuration settings for enabling the feature's of the extension.

To configure the settings:

1. Go to the Admin panel and scroll through the dashboard, present on the left navigation bar.

Advanced Reindex Module User Manual Guide

Ŵ	System	
CAN DASHBOARD	Data Transfer	Support
\$ SALES	Import	Data Collector
0	Export	System Report
TAOBAO PRODUCT IMPORTER	Import/Export Tax Rates	
	Import History	Permissions
a	Scheduled Import/Export	All Users
AMAZON INTEGRATION		Locked Users
